# Marvel® Warranty and Quality Information

## The Marvel® Lifetime Warranty

*Marvel®* warrants its products to the original purchaser to be free from defects in material and workmanship for as long as the original purchaser owns the product, except as provided below.

Components and parts deemed as high wear including: casters, pneumatic cylinders, stacking chairs, and task lights are warranted for five years from the date of sale. Fabrics are warranted for five years. Electronic Adjustable Table electric components and motors are limited to 5 years, under normal operating conditions, subject to inspection and determination of the manufacturer. Seating control mechanisms and keyboard arms are warranted for ten years from the date of original sale. Warranty periods for seating that exceeds eight hours per day usage (single shift) is reduced in a pro-rata basis.

This warranty excludes products that were not installed or used in accordance with product instructions and warnings. Product adaptations, customizations or modifications not explicitly approved by *Marvel®* do not qualify for this warranty.

The obligations of *Marvel®* are limited to repair or replacement at the sole option of *Marvel®*. *Marvel®*, in no event, will be responsible for incidental or consequential damages arising out of a claim for defective or damaged product.

## The Marvel Quality Guarantee

### ISO 9001-2008

*Marvel®* is registered to ISO 9001-2008 under Underwriters Laboratories' (UL) accreditation by Raad voor de Certificatie (RvC), the Dutch Council for Certification. The International Organization for Standardization is an international agency formed in 1979 to harmonize quality management and quality assurance standards for manufacturing and service industries.

The ISO 9001-2008 standard is the broadest and most difficult standard to attain. In addition to the ISO 9001-2008 standards of quality management system, control product handling, documentation, and personnel, it also includes quality in:

- Product design and development
- Marketing
- Purchasing
- Customer service and after-sales support

## Marvel Quick Ship

*Marvel®* offers this premium service with no premium charges on select Pronto®, MW, Allegra®, Endeavor®, ergonomic accessories and storage product lines. Products can ship in as little as 5 DAYS.

## Marvel® Environmental Statement

*The Marvel Group, Inc.* is proud of our ongoing commitment to responsible environmental policies and manufacturing processes. Safeguarding the earth's vital resources through conservation, technology application and progressive emission controls is a responsibility embodied in our manufacturing, sourcing and marketing practices.

*Marvel®* wood and wood based components including our particleboard have no components related to or sourced from coastal rainforests, ancient or old growth forests. Additionally *Marvel®* is continuing research into the use of Hay and Grain based particleboard for potential use in future products.

Our coating process emissions are the lowest possible as *Marvel®* utilizes unique state-of-the-art powder-coating methods, which virtually eliminate vapor emissions as well as allowing us to recycle close to 100% of our overspray.

Our steel suppliers currently use a variety of sources for recycled and scrap steel, which is utilized in the manufacturing process.

These efforts coupled with a corporate culture of responsible stewardship combine to give our associates and customers the reassurance and confidence they demand in partnering with a socially and environmentally responsible company.

The Marvel Group, Inc. is a proud past recipient of the Illinois Governor's Pollution Prevention Award.

Recycled Content for *Marvel Zapf®* Product line:

Aluminum Frame comprises 90% of each panel and contains 70% post consumer recycled aluminum.

Steel supports, storage and other components comprise 80% of a

Freestanding typical and contains 15% post consumer recycled steel.

# Terms and Conditions

## Ordering

### Price and Payment

Prices stated in this price list or invoice include domestic freight and standard packing. Orders are invoiced at the time of shipment or as shipments occur in the case of multiple shipments. Payment is due within 30 days from date of invoice. In some cases *Marvel*® may require full or partial payment in advance or other adequate assurance of payment. Specifications subject to change without notice.

### Changes and Cancellations

Any changes or cancellations on 4-Week Ship products must have written consent from *Marvel*. Approved cancellations for products will be subject to a 25% cancellation charge if the request is approved within two weeks of scheduled shipping date. No cancellations are permitted within one week of ship date. All orders, order changes and cancellations must be submitted in writing by the ordering activity. Ordering activities must submit complete and accurate delivery orders. The time of delivery period as specified begins on the date of receipt of a complete and accurate delivery order.

### Who May Purchase From This Price List

Who may purchase from this federal supply schedule price list: authorized mandatory and non-mandatory users under Federal Supply Schedule Group 71, Part I, and contractors authorized to purchase on behalf of Federal Agencies (proof of authorization must be provided upon order placement) may purchase from this price list.

## Shipping

### Shipment and Delivery

All shipments will be FOB destination. *Marvel* will select the method of shipment, unless otherwise specified by Purchaser. If added cost is incurred due to Purchaser's special request, the added cost will be invoiced to Purchaser. To ensure orders are processed accurately and within requested time frames, delivery orders must contain the following complete and accurate information:

Contract number:	GS-29F-0168G. This is required for all purchases made using this price list.
Date:	The order date must be on or before September 30, 2011.
Seller:	<i>Marvel</i> must be listed as the seller.
Shipping address:	Provide complete addressing information and number of copies required.
Terms F.O.B.	One percent, 10 Days, Net 30.
Product:	Provide correct and complete product specifications.
Pricing:	Provide the correct extended dollar totals.
Signature:	An authorized agency signature is required.

### Storage

In the event Purchaser postpones delivery more than one week after the scheduled shipping date or after the goods have become work-in-process, *Marvel* may transfer, at the Purchaser's risk and expense, the goods to storage. A storage fee will be added to the Purchaser's invoice.

### Returns

To request a return, call the *Marvel* Customer Service Department within 30 days of the invoice date. Once approved, you will receive an authorization number and return documentation to accompany the product and further instructions. To avoid additional product reworking fees, goods must be appropriately packaged to ensure safe return. All returns are subject to a 25% restocking charge.

### Claims

In the event that any product arrives damaged, *Marvel* will:

1. Replace goods immediately at no charge.
2. Contact the freight carrier for inspection and return delivery to *Marvel*.
3. Process claim with freight carrier.

Purchaser must indicate on delivery receipt all visible damage and obtain driver's signature. Goods must be returned within 15 days of receipt. Damage claims will not be processed after 15 days of delivery date.

## Panel Fabric Direction Selection

Standard 80" or higher panels are upholstered vertically, whereas all other panels, 67" or shorter, are upholstered horizontally. When placed in the same area a shading discrepancy may occur.

To maintain visual continuity, please select OPTION A, an upcharge will apply:

**OPTION A.** To maintain a uniform appearance of the panels, the fabric direction on 67" or shorter panels will match the fabric direction of the 80" or higher panels. An upcharge of 12% per panel will be added to your order to cover the expense of matching the fabric direction.

**OPTION B.** The fabric pattern will not match on this order. It is understood that there will be a shading discrepancy and there will be no upcharge for this option.

**1. Lead Time**

Standard *Marvel Zapf*® products will ship within 20 days after receipt of purchase order. For lead times concerning COM fabrics or COM laminates, contact Customer Service.

**2. Electronic Support**

The *Marvel Zapf*® line is available on Giza, and the library includes the auto-hardware function and the new exclusive auto-electric function.

Contact *Marvel*® directly for a copy of the library.

**3. Design Assistance**

Marvel includes professional Space Planning devoted to the *Marvel Zapf*® product line. Phone 800-621-8846.

**Grommet Location Options**

Grommets can be ordered for worksurfaces and returns. The 2" diameter grommets are inset 4-3/8" from the surface edge to the center of the grommet. For factory installation of grommets, add configuration code A through E to the end of the product number. List price is \$5.19 per grommet.

A 2" diameter grommet is standard for all corner worksurfaces.

Corner Worksurface

Power Box and Grommet are level with the worksurface. Cover may be used as a pencil tray.

**1. Standard Panel Characteristics**

All fabric panels are acoustical. 12" wide and 18" wide panels do not accept power blocks. 24" wide panels accept one duplex receptacle per side. All other panel widths accept two duplex receptacles per side.

**2. Worksurface Power Access Panel**

See page ZP41 of this pricer for important product details.

**3. Dimensional Gain**

Two-way, three-way, and four-way connectors each cause 2" dimensional gain. Extended rectangular surfaces are available on page ZP53.

**4. Worksurfaces**

All worksurfaces are constructed of 1 1/8" thick particleboard with high pressure laminate applied on the top and a full backing sheet bonded to the bottom. Square edge and Bull nose surface detail is available on all surfaces.

**5. Product Testing**

Electrical components are U.L. 1286 (C UL) listed. Panels and support components meet or exceed all ANSI BIFMA X5.6 requirements. Panels are Class A fire Rated. The Noise Reduction Coefficient is .70, and the Sound Transmission Class (STC) is 24.

**Grain Direction Indicators**

Worksurfaces and *Zapf*® Tiled Panels with wood grain laminates are manufactured in a consistent grain direction. This direction will be indicated on the product icon to the left of the item listing. The direction will be shown as a unique double ended arrow. 

Does not apply to non-wood grain laminates.

**Selling Features for Our Dealers**

1. The *Marvel Zapf®* line was designed by Otto Zapf, world renowned office furniture designer.
2. There is consistency in the design and aesthetics of *Marvel Zapf®*.  
The available square edge, bull-nose T edge detail, radiused top caps and end caps, and use of the radius in overhead storage maintain a consistent and appealing appearance.
3. The connection system is easy to understand and provides easy installation.
4. Lead time of 20 days.
5. The *Marvel Zapf®* price point, for a high-end design and high quality panel system, is easily the best available today.

# Marvel Zapf® Support and Stability Planning

This information is a guideline for safe layout and panel installation: refer to it to make sure every panel run and component has adequate support.

## Sequence to Determine Proper Support

Determine:

1. The components that qualify as support components
2. The panels that qualify as support panels
3. Termination support for each end of panel run
4. If panel run is non-loaded
5. If panel run is load-bearing
6. Support panel width
7. Support panel height
8. Minimum interval between support panels

## 1. Support Components

These components provide adequate lateral support to a panel run. The following qualify as support components:

- A Full Leg Support attached to a worksurface
- A Panel Mount-to-Wall Kit attached to a structurally sound surface
- A Panel-to-Pedestal Bracket attached to a worksurface

## 2. Support Panels

These panel types qualify as approved support when they are attached perpendicularly to the panel run:

- Acoustical Panel
- Glazed Panel
- Half Glazed Panel
- Clear Story Panel
- Open Base Panel
- Tiled Panel

If a panel is used as the support component, it must meet the width and height requirements established in Step 3.

## 3. Panel Run Lengths

### A. Double sided panel returns

A panel run between 48" and a maximum of 144" must have a minimum of two return panels totaling 20% of the panel run extended in opposing directions on each end of the panel run.

# Marvel Zapf® Support and Stability Planning

## 3. Panel Run Lengths continued

- B. Single sided panel returns  
A panel run between 48" and a maximum of 144" must have a minimum of two return panels totaling 60% of the panel run extended in one direction on each end of the panel run. The minimum return panel length must be 48".

- C. Worksurface must be supported properly every 48" to provide correct stability. It is recommended that shared legs be used to support all corner surfaces.

## 4. Non-Loaded Panels

Panels with no components attached are considered non-loaded. When the following components are attached, these panels are also considered non-loaded:

- Tackboard

## 5. Load Bearing Panels

A panel supporting any other type of component is considered a load-bearing panel. These components include:

- All shelves and Flipper Door Units
- Hanging Worksurface
- Corner Worksurface

Worksurfaces are considered load-bearing with or without suspended components or drawers. A support panel or support component must be used on each side of a load-bearing panel.

Planning Tips

- Panel Connectors must be specified for both sides of the door. Pages ZP43-ZP47
- Electrical and Data Cables can NOT be routed through the door frame
- Door is mounted as shown, and may be reversed during installation
- Inside Door dimensions: height 76", width 36"
- Outside Door dimensions with frame: height: 81", width 42"
- Door available in LIMBER MAPLE laminate standard, other options available

## In-Line Connectors SIN 711-1

•On GIZA Auto-Hardware

### Product Description

Connects 2 Panels of same height side-to-side (180 degrees) with no dimensional gain.

### Specify in order:

1. Product Number
2. Quantity

### Includes

- Panel Connection Bracket and hardware

Product Description	Product Number	Price
In-Line Straight Connector	ZCI	\$22.20

## Post Connectors SIN 711-1

•On GIZA Auto-Hardware

### Product Description

Connects Panels of the same height at 90 degrees in 2-Way, 3-Way, or 4-Way connections. Dimensional gain is 2".

### Specify in order:

1. Product Number
2. Finish
3. Quantity

### Includes

- Panel Connection Bracket and Wedge Blocks
- Top Trim and Raceway Trim pieces
- Post

### Planning Tips

- All Post Connectors have 2" dimensional gain
- GIZA library for Marvel Zapf has "Auto-Hardware" capability

## Variable Height Connectors

### In-Line Connectors SIN 711-1

•On GIZA Auto-Hardware

#### Product Description

Connects two panels in-line at differing heights.

#### Specify in order:

1. Product Number
2. Finish
3. Quantity

#### Includes

- Connection Bracket
- Trim Piece(s)

Description	Product Number	Price
41" In-Line Connector	ZCVI41( )	\$31.08
49" In-Line Connector	ZCVI49( )	\$31.08
57" In-Line Connector	ZCVI57( )	\$31.08
65" In-Line Connector	ZCVI65( )	\$31.08
81" In-Line Connector	ZCVI81( )	\$31.08

In-Line Connection:  
starting height 65",  
dropped height 57"

Use these guidelines for specifying correct height drop

Model number format: ZCVI65( ) Add letter corresponding to panel being dropped

A = 33" Panel

D = 57" Panel

B = 41" Panel

E = 65" Panel

C = 49" Panel

**Starting  
Height**

**Dropped  
Height**

**ex:  
ZCVI65D**

**65"**

**57"**

#### Planning Tips

- No additional dimensional gain
- Connects in-line panels only
- Height drop cannot exceed 24" (Example: 81" to 57")
- Power poles cannot be specified into Variable Height Connectors
- Counter Tops used with variable heights, see page ZP56

## Variable Height Connectors

### 2-Way Connectors SIN 711-1

•On GIZA Auto-Hardware

#### Product Description

Connects two panels at 90 degree corner at differing heights.

#### Specify in order:

1. Product Number
2. Finish
3. Quantity

#### Includes

- 90 degree Connector Post
- Panel Connection Bracket and Wedge Blocks
- Top Trim and Raceway Trim Pieces

Description	Product Number	Price
2-Way 90 degree Connector	ZCV2W( )A( )B( )	all sizes \$93.98

2-Way Connection:  
starting height 65",  
dropped height 57"

Use these guidelines for specifying correct height drop

Model number format: ZCV2W( )A( )B( ) - Add number corresponding to panel heights

- |               |               |
|---------------|---------------|
| 1 = 33" Panel | 4 = 57" Panel |
| 2 = 41" Panel | 5 = 65" Panel |
| 3 = 49" Panel | 6 = 81" Panel |

ex: **ZCV2W65A5B4**

65"

57"

#### Planning Tips

- 2-Way Post Connectors have 2" dimensional gain
- Do not need to specify regular 2-Way Connector
- Height drop cannot exceed 24" (Ex. 81" to 57")
- Power poles cannot be specified into Variable Height Connectors
- Counter Tops used with variable heights, see page ZP56

### 3-Way Connectors SIN 711-1

•On GIZA Auto-Hardware

#### Product Description

Connects three panels at 3-Way corner at differing heights.

#### Specify in order:

1. Product Number
2. Finish
3. Quantity

#### Includes

- 3-Way Connector Post
- Panel Connection Bracket and Wedge Blocks
- Top Trim and Raceway Trim Pieces

Description	Product Number	Price
3-Way Connector	ZCV3W( )A( )B( )C( )	all sizes \$93.98

3-Way Connection:  
starting height 65",  
dropped height 57"

Use these guidelines for specifying correct height drop configuration

Model number format: ZCV3W( )A( )B( )C( ) - Add number corresponding to panel heights

- |               |               |
|---------------|---------------|
| 1 = 33" Panel | 4 = 57" Panel |
| 2 = 41" Panel | 5 = 65" Panel |
| 3 = 49" Panel | 6 = 81" Panel |

ex: **ZCV3W65A5B4C5**

65"

65"

#### Planning Tips

- 3-Way Post Connectors have 2" dimensional gain
- Do not need to specify regular 3-Way Connector
- Height drop cannot exceed 24" (Example: 81" to 57")
- Power poles cannot be specified into Variable Height Connectors
- Counter Tops used with variable heights, see page ZP56

## Variable Height Connectors

### 4-Way Connectors SIN 711-1

•On GIZA Auto-Hardware

#### Product Description

Connects four panels at 4-Way corner at differing heights.

#### Includes

- 4-Way Connector Post
- Panel Connection Bracket and Wedge Blocks
- Top Trim and Raceway Trim Pieces

#### Specify in order:

1. Product Number
2. Finish
3. Quantity

Description	Product Number	Price
4-Way Connector	ZCV4W( )A( )B( )C( )D( )	all sizes \$93.98

4-Way Connection:  
starting height 65",  
dropped height 57"

Use these guidelines for specifying correct height drop configuration

Model number format: ZCV4W( )A( )B( )C( )D( )

- Add number corresponding to panel heights

- |               |               |
|---------------|---------------|
| 1 = 33" Panel | 4 = 57" Panel |
| 2 = 41" Panel | 5 = 65" Panel |
| 3 = 49" Panel | 6 = 81" Panel |

#### Planning Tips

- 4-Way Post Connectors have 2" dimensional gain
- Do not need to specify regular 4-Way Connector
- Height drop cannot exceed 24"(Example: 81" to 57")
- Power poles cannot be specified into Variable Height Connectors
- Counter Tops used with variable heights, see page ZP56

## Panel End Cap SIN 711-1

•On GIZA Auto-Hardware

### Product Description

Finish Post for End Panels.

### Specify in order:

1. Product Number
2. Finish
3. Quantity

### Includes

- Radiused Post and Trim Pieces

1.25"	1.375"	81"	Panel Mount to Wall Kit	ZCW81	\$53.65

## Wall Hanger Strip SIN 711-1

### Product Description

Allows panel-hung components to be hung from walls.

### Specify in order:

1. Product Number
2. Finish
3. Quantity

### Includes

- Wall Hanger Strip and Hardware

Width	Depth	Height	Description	Product Number	Price
1.625"	.875	65"	Wall Hanger Strip	ZCHS65	\$16.65
1.625"	.875	81"	Wall Hanger Strip	ZCHS81	\$22.57

### Planning Tips

- To mount one panel hung component from the wall, specify two Wall Hanger Strips
- To mount two panel hung components from the wall, specify three Wall Hanger Strips

## 11' Power Pole/Communication Pole SIN 711-1

**Product Description**

Allows electrical and data cable access from ceiling to end-of-run panel.

**Specify in order:**

1. Product Number
2. Color
3. Quantity

**Includes**

- 11' PVC Pole with Septum
- Panel and Ceiling Connection Trim

Description	Product Number	Price
11' Power Pole	ZEPE132	\$119.51

**Planning Tips**

- Specify 11' Power Pole for "end-of-run" applications
- Ceiling Power Feed (below) must be specified separately
- Power Pole cannot be used with variable heights

## 8' Power Pole/Communication Pole SIN 711-1

**Product Description**

Allows electrical and data cable access from ceiling to 3-Way or 4-Way Connector Post

**Specify in order:**

1. Product Number
2. Finish
3. Quantity

**Includes**

- 8' Aluminum Pole with Ceiling Connection Trim

Description	Product Number	Price
8' Power Pole	ZEPC96	\$67.34

**Planning Tips**

- Specify 8' Power Pole for power entry in "corner" of panels.
- Ceiling Power Feed (below) must be specified separately
- 3-Way and 4-Way Connector Pole Kits must be specified separately (next page)
- All panels being connected should be of equal height
- Power Pole can not be used with variable heights
- Power Poles can not be specified into 2-way connections

## Power In Feed SIN 711-1

•On GIZA Auto-Electrical **AE**

**Product Description**

Connects power source in building to electrical system in furniture.

**Specify in order:**

1. Product Number
2. Quantity

**Includes**

- Power Entry Cable

Description	Product Number	Price
72" Base End Feed	ZEBE72	\$49.21
72" Base Side Feed	ZEBS72	\$59.57
11' Ceiling Feed	ZEC144	\$62.90

**Planning Tips**

- Base End Feed connects the end of power block in raceway
- Base Side Feed fits within the receptacle knock-out in the raceway
- Use Ceiling Feed for either 11' or 8' power pole

## Connector Power Pole Kits (required for corner post power entry) SIN 711-1

## Product Description

Post connector plus necessary panel trim pieces to attach 8' power pole.

## Specify in order:

1. Product Number
2. Finish
3. Quantity

## Includes

- Post Panel Connector and Trim Pieces

Height	Description	Product Number	Price
33"	2-Way Power Pole Kit	ZEPT233	\$67.34
41"	2-Way Power Pole Kit	ZEPT241	\$67.34
49"	2-Way Power Pole Kit	ZEPT249	\$67.34
57"	2-Way Power Pole Kit	ZEPT257	\$67.34
65"	2-Way Power Pole Kit	ZEPT265	\$67.34
81"	2-Way Power Pole Kit	ZEPT281	\$68.45
33"	3-Way Power Pole Kit	ZEPT333	\$93.98
41"	3-Way Power Pole Kit	ZEPT341	\$93.98
49"	3-Way Power Pole Kit	ZEPT349	\$93.98
57"	3-Way Power Pole Kit	ZEPT357	\$93.98
65"	3-Way Power Pole Kit	ZEPT365	\$93.98
81"	3-Way Power Pole Kit	ZEPT381	\$97.31
33"	4-Way Power Pole Kit	ZEPT433	\$93.98
41"	4-Way Power Pole Kit	ZEPT441	\$93.98
49"	4-Way Power Pole Kit	ZEPT449	\$93.98
57"	4-Way Power Pole Kit	ZEPT457	\$93.98
65"	4-Way Power Pole Kit	ZEPT465	\$93.98
81"	4-Way Power Pole Kit	ZEPT481	\$97.31

## Planning Tips

- This kit eliminates the need of specifying a post connector
- 8' Power Pole (previous page) must be specified separately
- Power Pole cannot be used with variable heights

## Infeed and Junction Box for Hardwire Applications SIN 711-1

## Product Description

Components for hardwire applications, such as New York code.

## Specify in order:

1. Product Number
2. Quantity

Description	Product Number	Price
Hardwire Infeed	ZENY	\$65.86

## Planning Tips

- Cannot be used on a 24" panel

## Power Blocks SIN 711-1

• On GIZA Auto-Electrical **AE**

## Product Description

Distributes power and accepts 4 receptacles on panels 30" and wider.

## Specify in order:

1. Product Number
2. Quantity

## Includes

- Power Block Assembly

Width	Product Number	Price
24"	ZEPB24	\$56.61
30"	ZEPB30	\$56.61

## Grommet Location Options

### 5-Day Ship

Dark neutral grommets can be ordered for round or square edged worksurfaces and returns. The 2" diameter grommets are inset 4-3/8" from the surface edge to the center of the grommet. For factory installation of grommets, add configuration code A through E to the end of the product number. List price is \$5.19 per grommet. A 2" diameter grommet is standard for all round edged peninsula worksurfaces. To order a grommet for the square edged Peninsula worksurface add configuration code B to the product number.

## Specifications - Allegra® /Endeavor® WorkChairs

### Technical Specifications

#### Base

Injection molded plastic understructure  
*Allegra* Sled Base Chair has 1" diameter 11 gauge steel tubing

#### Casters

55mm hooded dual wheel carpet or hard floor casters  
 Note: WorkChairs ship standard with carpet (hard) casters – for hard floor applications, specify soft casters

#### Seat

7-ply 1/2" thick plywood  
 Molded foam initial load deflection (ILD) = 40 lbs.

#### Back

7-ply 1/2" thick plywood  
 Molded foam initial load deflection (ILD) = 28 lbs.

#### Chair Mechanisms

	Executive	Management	Operational	Task
Knee Tilt	x	x		
Swivel Tilt	x	x		
Task			x	x
<i>Endeavor</i> Syncro Tilt			x	x

#### Swivel Tilt Mechanism

Usage: Executive and Management Chairs  
 Simple conventional mechanism with centered pivot point for use on chairs with fixed seat-to-back relationship  
 Includes tilt tension knob adjustment  
 Seat pivots from center point

#### Knee Tilt Mechanism

Usage: Executive and Management Chairs  
 Enhanced swivel tilt mechanism with forward position pivot point and two position tilt-lock lever.  
 For use on chairs with fixed seat-to-back relationship. Includes tilt tension knob adjustment.  
 Seat pivots from its front edge. Front of chair does not rise as the back of the chair reclines.  
 The user's feet remain on the floor with no additional pressure is placed on the back of their legs.

#### Task Mechanism

Usage: Operational and Task Chairs  
 Forward tilt mechanism allows independent movement of the seat and back. A single lever locks seat and back into any position within a 4° forward to a 21° rear range of travel. Includes back height adjustment.  
 Task Mechanism provides maximum adjustability for task intensive workers

#### Synchronized Mechanism

Usage: *Endeavor* Operational and Task Chairs
